

THE BACKBONE OF YOUR **ISP** BUSINESS

ZIN EOS (pronounced 'ZEN') is an Industry Tailored **ISP Operating System** that securely and efficiently simplifies your operations.

Utilizing a **360° systems solutions approach**, **ZIN EOS** will provide a paradigm shift for business operations to:

- 1 Drive efficiency to enable automation
- 2 Increase productivity & profitability
- 3 Improve Cybersecurity across the organization
- 4 Eliminate swivel chair processes
- 5 Improve system reliability and true data integrity
- 6 Reduce IT overhead
- 7 Build DR into the core through Cloud Architecture
- 8 Reduce need for multiple platforms to support operations

How Do You Benefit?

Using a fully integrated platform can help an organization gain significant **operational and cost savings**. Based on leading research on traditional full scale supply chain, enterprise and operational platforms here are some statistics that showcase the benefits of **ZIN EOS**:

1 Studies show a **15-25%** reduction in administrative costs after implementation of a fully integrated operational and supply chain environment.

2 Automated provisioning, order processing and supply chain can provide up to a **30%** increase in operational efficiency.

Cost Savings

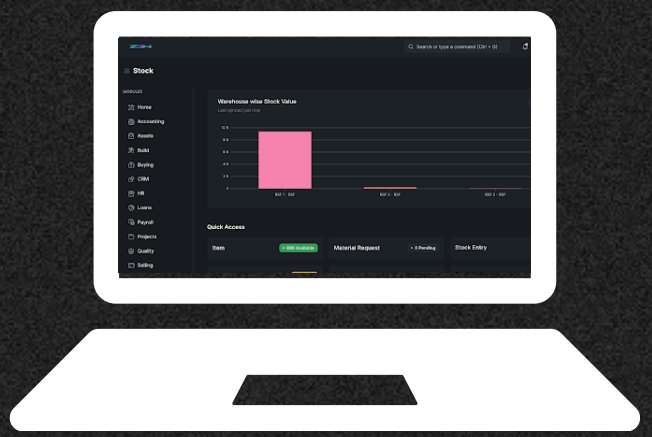

3 Studies show a **10-15%** reduction in order processing time.

4 Inventory accuracy can be improved by **20-30%** with ZIN.

What Sets ZIN Apart?

What you don't get with a traditional EOS system are the operational tools needed to fully support your business. Shouldn't an OSS/BSS system have operational tools? We think so (or with ZIN EOS, you do!)

ZIN EOS enables monitoring and response, real world real time data, automated provisioning, automated supply chain management, all designed by experienced ISP leadership with unmatched experience.

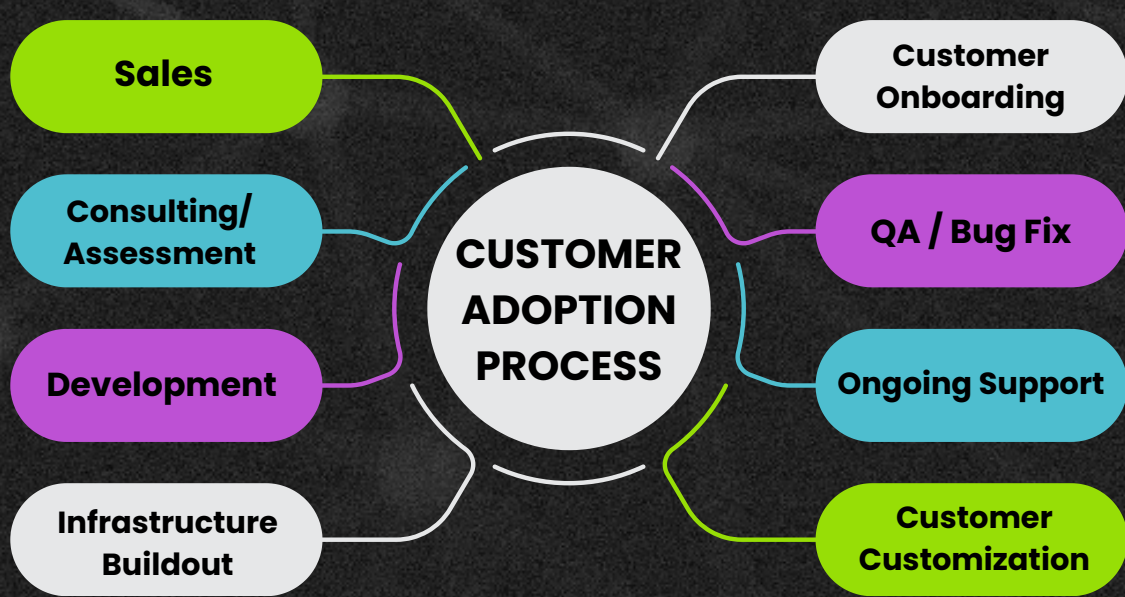

Enhanced Reporting and Real Time Decision-Making

- 1** ZIN EOS provides real-time data across the entire organization, enabling accurate real-time decision-making.
- 2** ZIN EOS Enabled Business Intelligence enables an estimated 5-10% increase in profit margins.
- 3** Improved customer experience: ZIN EOS enables a streamlined order fulfillment, customer visibility and customer communication.

LET US HELP YOU FIND YOUR 'ZIN'

We offer an easy and phased onboarding process to ensure a smooth transition.
